EXPERIENCE

Overall, I have dealt with computers my whole life. I started my interest as a kid and slowly got more and more experience as I grew up. In High school, I started delving into Cyber Security and coding. I took Computer Science 11 and 12, and enjoyed both classes. In those classes, I learned the coding languages Visual Basic and Javascript. I also got selected to join our Cyber Security pilot course in 12th grade. In that class, we had labs where we used virtual machines to learn about forensics and vulnerabilities in both Linux and Windows.

As for extra curriculums, I participated in the Cyber Titans competition. The Cyber Titans is a cyber security competition where we compete to see who can secure systems the best. By the end of it, my team and I ranked top 10 in Canada and got to fly to Ottawa! This trip gave us great experience on the importance of Cyber Security.

EDUCATION

Moncton High School, 140 Longfellow drive— *High school diploma*

I went to Moncton high school from 2015 - 2019. In high school, I took several Computer Science oriented classes. As a side extra curricular, I joined the Drama department at the end of 2016 and have been doing tech ever since.

Mount Allison University - Starting Fall of 2019

I am currently enrolled in Mount Allison university for a Bachelor of Science and plan on majoring in Computer Science

EMPLOYMENT

Medavie SNB, Location — *Full time temporary job*

In the summer of 2018, I worked full time for the summer at Medavie SNB. While working here, I set up 150 iPhones for the ambulances. I had to set up each phone and add the companies software as well. I also worked in Accounts Payable doing Data Entry for around 3 weeks of my time working there.

Atlantic Superstore, 89 Trinity Drive — *Employee*

I have been working at the Trinity Superstore since June 31st, 2018. I work in the Joe Fresh department, I work on the Front End and I also work in the Garden Center (seasonal job)

McDonalds, Dieppe, Paul Street/Walmart — *Cashier/Worker*

I worked at McDonalds for 3 months, and tried working in several different areas of the restaurant. I made drinks and served fries, worked on the Drive thru a few times, worked the cash and cleaned the lobby.
